Internet Safety

**Presentation for Middle Schoolers:
Saturday, November 15, 2025, 2:00 – 3:00 p.m.**

**Presentation for Caregivers:
Wednesday, November 19, 2025, 5:30 – 7:00 p.m.**

Research shows that children are exposed to content and pressures online far earlier than caregivers realize. In response, the Berkshire District Attorney's Office and Berkshire County Kids Place have partnered to launch cyber safety education utilizing the NetSmartz program.

November 15: Middle school-aged youth are invited to participate in one 60-minute session to learn about safe online behavior. A separate activity will be provided for parents/caregivers for the duration of the program.

November 19: The 90-minute parent/caregiver workshop will provide an overview of cyber safety, including information about inappropriate content children encounter online, red flags to be aware of, and how to access resources to address inappropriate content.

Both sessions will take place at Lenox Library, 18 Main Street. No registration required.
